Please perform sequence search for Serial No. 10/781,014

1. Please search SEQ ID No.: 179 against nucleic acid commercial, PGPub, and issued databases.
2. Please search SEQ ID No.: 180 against nucleic acid commercial, PGPub, and issued databases.
3. Please perform **OLIGO** search for SEQ ID No.: 1 against nucleic acid commercial, PGPub, and issued databases.

Please save on COMPUTER DISKETTES.

Thank you very much.

November 2005

Published_Applications Nucleic Acid and Published_Applications Amino Acid database searches now generate two sets of results each. The Published_Applications databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Newly published applications will appear in the Published_Applications_New databases; older published applications make up the Published_Applications_Main databases.

Searches run against Nucleic Acid Published_Applications produce two sets of results, with the extensions **.rnpbm** (Published_Applications_NA_Main) and **.rnpbn** (Published_Applications_NA_New).

Searches run against Amino Acid Published_Applications produce two sets of results, with the extensions **.rapbm** (Published_Applications_AA_Main) and **.rapbn** (Published_Applications_AA_New).
